

Tongue Cleaner

Product Code: Tongue Cleaner

Weight: 0.05kg

Price: 2.00?€

Ex Tax: 1.67?€

Short Description

Tongue Cleaner

Description

A tongue cleaner removes more mucous, bacteria and debris from the tongue than anything else and with terrific ease and efficiency. This has been proved through the experience of oriental civilizations that have used tongue cleaners for centuries to have the lowest incidence of tongue diseases & disorders. A white film on the top of the tongue means there are millions of bacteria living there. The practice of scraping the tongue removes the white colour waste products from the surface of the tongue, and enhances the functioning of taste buds. Not only that, it helps to reduce halitosis, or bad breath and provides a clean environment for good dental hygiene.
